

### **WOMT Summary for February 23, 2010**

FWS accepted the SWG recommendation of continuing an OMR flow of no more negative than -5,000 cfs for Delta smelt.

DFG concurred with SWG recommendation for protection of longfin smelt.

DOSS made no change to last week's advice of continuing an OMR flow of no more negative than -5,000 cfs for protection of salmonids.

Current OMR flow of no more negative than -5000 cfs is consistent with the NMFS BO.
